

Additional Materials Include:

Acrylic

ASA

Butyrate

CPVC (Chlorinated polyvinyl Chloride)

EMA (Ethylene Methyl Acrylate)

EEA (Ethylene Ethyl Acrylate)

“Engage” Branded name (Polyolefin elastomer)

EVA “Elvax” Branded name (Ethylene Vinyl Acetate)

FPVC Clear and filled (55A to 90A and Semi Rigid)

PVDF (Polyvinylidene Fluoride)(“Kynar” Branded name) flex to ridged

HDPE

HMWPE

“Hytrel” (Co-polyester elastomer TEEE) flex to rigid (Hytrel is a branded name)

Kraton

K-Resin (Clear Styrene)

LDPE

LLDPE

Nylon 6 (ridged) (Nylons are also known as “Polyamide”

Nylon 612

Nylon 11 (Flexible)

Nylon 12 (Flexible to semi ridged)

PETG

Polycarbonate (“Lexan” Branded name)

Polypropylene (HOMO polymer)

Polypropylene (Co-polymer)

Polypropylene (Calcium Filled)

Polypropylene (Talc Filled)

Polypropylene (Anti-Stat)

PPS

RPVC

TPV “Santoprene” “Sarlink” (TPV Thermoplastic Vulcanize) 55A 64A 73A 80A 87A 50D

(Santoprene and Sarlink are a branded name)

Styrene (HIPS)

Polyurethane “TPU” (Ether and Ester) 60A 70A 80A 83A 50D 73D

Polyurethane “TPU” Anti-Stat (Nonconductive)
